

# **How to Gather, Arrange and Present Your Recipe Collection**

**With Claire Hopley**

## **What to bring:**

To the first workshop session, bring a few recipes to work with along with a pencil and notepad. During the two-week break between workshops, you will have time to continue to work on your recipes. The second session will focus on the presentation and advice on problems and issues that you may have run into.

This class explains how to write recipes in a way everyone will understand, how to choose which ones to showcase, and how to present them so they can easily (and fairly cheaply) be turned into a book or pamphlet.
